Sub: Disinfection & pest Control Services for prevention of Corona Covid-19 Virus

Central Warehousing Corporation (CWC) is a Central Govt. PSU, under the Ministry of Consumer Affairs, Food & Public Distribution. It is providing scientific public warehousing and pest control services, i.e. disinfestation & disinfection against Corona Covid-19 virus, germs & microbes, termite treatment, rodent, mosquitoes, flies, termites, rodents, weed control, etc, **since 1957**.

Our reputed clients and prominent locations are Ministries, PSUs, State/Central Govt. Offices, Railway station and coach, Workshop, Ships, Container, National Museum, Science Center, Aircraft, Hanger, Airlines, airports of Airport Authority of India, AIIMS, Hospitals, Banks, Universities, MSTC, HAL, HCL, GAIL, RBI, UTI, etc. We are also providing corona disinfection services in residential area.

In light of the Covid-19 Pandemic, the importance of disinfection against communicable disease and vector/pest control is now well known. Pests, germs & microbes carry diseases, injurious to health. Prevention is better than cure. Chemical disinfectants clean most of microorganisms, maintain sterile environment around us and prevent spread of communicable disease and infection.

Disinfection services should be taken from the trained operator. As per the Insecticide Act-1968, the accreditation & PCS license is a must for disinfestation works. The recommended frequency of disinfection may be daily or thrice or twice a week, as per the Communicable Disease & Control guidelines.

*CWC may provide corona disinfection services at economical rates, depending upon frequency and extent of area to be disinfected. Relevant contact details of CWC officials, PAN India level, is enclosed as **Annexure-I**. For the ease of coordination, Sh. Abhishek Anand, (AGM/CWC/CO, New Delhi) has been nominated as a single point contact (Mob. no-8174881088 & email: abhicwc@cewacor.nic.in).*

In view of above, CWC request the Ministries to avail pest control as well as disinfection services in their establishments built-up / covered & open area of the campus, in order to prevent the spread of Corona Covid-19 Virus and minimize the menace of mosquitoes, flies, cockroaches, birds, termites, rodent, weed control, etc.
