PREFACE

Extramural Research and Development (R&D) projects support is a peer reviewed competitive grant mechanism of the Central Government to promote, catalyze and advance R&D and innovation in the country and provides special encouragement to scientists to pursue a research career. **Centre for Human and Organisational Resource Development (CHORD)** division ~~erstwhile~~ **NSTMIS** division of the Department of Science and Technology (DST) has been collating, analyzing and disseminating information on Extramural Research and Development projects funded by various scientific agencies. Directory of Extramural R&D projects approved for funding by selected Central Government Departments/Agencies is being published by this department annually since 1990-91. Since 2000-01, the task for preparing the directory has been sponsored to Manpower Management Centre (MMC), New Delhi. The present directory, twenty-eighth in the series is an outcome of the efforts made in this regard for the projects funded during the year 2017-18 by various scientific agencies of the Government.

This directory contains information on 4137 R&D projects approved for funding by 14 scientific agencies/departments during 2017-18. The directory begins with brief overview and analysis of the data and provides the projects details such as title, address of principal investigator, duration, name of funding agency/scheme and funds approved have been provided based on the data received from the funding agencies. The projects have been classified into 8 major subject areas such as Agricultural Sciences, Biological Sciences, Chemical Sciences, Earth Sciences, Engineering & Technology, Mathematics, Medical Sciences and Physical Sciences. For reference, indexes on the name of Principal Investigator, Institute and State are appended.

An online Dashboard of Extramural R&D has been developed to facilitate online data collection to ensure maximum participation from various scientific agencies. It also helps in usage and data analytics of extramural R&D by varied stakeholders including policymakers in S&T sector.

ABOUT THE DIRECTORY

INTRODUCTION

Centre for Human and Organisational Resource Development (CHORD) division of the Department of Science & Technology (DST) has been compiling information annually on extramural (also called sponsored) R&D projects since 1990-91 in order to exchange information on Research and Development (R&D) projects with different interest groups. This compiled information is published as an annual Directory of Extramural Research and Development projects approved for funding by various agencies during the year.

The task of collecting, compiling, analyzing and publishing the directory for the year 2017-18 was sponsored by the Department of Science & Technology to the Manpower Management Centre (MMC), New Delhi. The present directory, 28th in the series, provides details of 4137 sponsored R&D projects approved during the year 2017-18 by 14 Central Government Ministries/Departments/Agencies.

The following Ministries/Departments/Agencies of the Central Government have furnished the list of projects approved by them:

- 1 All India Council for Technical Education (AICTE)
- 2 Council of Scientific and Industrial Research (CSIR)
- 3 Defence Research and Development Organisation (DRDO)
- 4 Department of Biotechnology (DBT)
- 5 Department of Coal (DOC)
- 6 Department of Science and Technology (DST)
- 7 Indian Council of Agricultural Research (ICAR)
- 8 Indian Council of Medical Research (ICMR)
- 9 Indian Space Research Organisation (ISRO)
- 10 Ministry of AYUSH (AYUSH)
- 11 Ministry of Earth Sciences (MOES)
- 12 Ministry of New & Renewable Energy (MNRE)
- 13 Ministry of Water Resources (MOWR)
- 14 University Grants Commission (UGC)

Note:

The addresses of all above mentioned funding agencies are given in **Annexure-1**.

LIMITATIONS

The data on Extramural R&D projects was collected from a number of Divisions in the Central Scientific Ministries/Departments/Agencies as per the standardized questionnaire designed by the CHORD, DST. Each division in the Central Scientific Ministries/Departments/Agencies has several schemes coordinated by various officials resulting in multiple contact points of interaction for collection of desired information which at times becomes a fairly time-consuming process. At times shortage of staff at these Ministries/Departments/Agencies leads to delay of data dissemination and hence requires multiple follow-ups over recurring months to get the data completely. 21 funding agencies were approached of which 14 provided data for the year 2017-18. Despite repeated efforts and personal visits by survey research team of MMC, quite a few funding agencies did not provide any data or provided only partial data. Moreover, data accuracy is also a challenge as data provided by several funding agencies was in abbreviated form such as acronym of Institution, name, missing designations, incomplete addresses/PIN of the Institutes, no details regarding duration of the projects & subject-areas etc. As a judicious exercise, survey team cross-validated data on funding agencies website's however most updated data was not available on some websites. The survey research team had to put in extra efforts to complete this information by communicating several times with the funding agencies. As the listing of projects is based on the inputs received from the responding agencies, it is presumed that the information furnished by them was complete. The project cost refers to the initial approved cost of the project for the initial approved duration of the project. However, it is quite possible that some of the projects mentioned in this directory may not be R&D Projects in the strict sense of the term.

ORGANISATION OF THE DIRECTORY

The projects have been listed in the directory by major subject area-wise. Under each major subject area, the projects have been arranged by funding agency-wise and also scheme-wise within funding agency. Under each scheme, the projects have been arranged alphabetically as per the title of the project. For each project, the information included is record number, title of the project, name of the funding agency/scheme, name and address of the investigator/institute, approved cost of the project and the duration of the project. The third column of the directory gives the name of funding agency and scheme. For example, this has been given as "DST-IRPHA". Here "DST" is the name of the funding agency i.e. 'Department of Science and Technology' and "IRPHA" is the acronym used for the name of the scheme under which the project was approved i.e. 'Intensification of Research in High Priority Areas'. For explanation of abbreviations/acronym for the agencies and schemes, the readers are advised to see **Table 1 & 2** under the Section "**BRIEF ANALYSIS**". For a quick reference, Index pages on Principal Investigator and Institute etc., have been provided in the directory at the end. The addresses of the funding agencies have been given at **Annexure-1**. **Annexure-2** gives institute-wise extramural R&D support committed during the year 2017-18. A brief analysis on the pattern of funding during the year 2017-18 is given in the following paragraphs.

Figure 1 shows the pattern of funding by various Central Government Extramural R&D sponsoring agencies. It may be seen that the Department of Science & Technology (DST) accounted for the maximum support of Rs. 1133.00 Crore (55.64%) followed by Department of Biotechnology with Rs. 629.09 Crore (30.89%). The two departments namely Department of Science & Technology (DST) & Department of Biotechnology (DBT) together played major role in extramural R&D funding in the country by contributing more than 86.53% of the total extramural R&D support at national level.

The other agencies that funded large sanctions have been the Defence Research and Development Organisation (DRDO), Council of Scientific and Industrial Research (CSIR) with Rs. 49.86 Crore (2.45%) and Rs. 49.64 Crore (2.44%) respectively. Ministry of New & Renewable Energy (MNRE) provided a funding support of Rs. 44.81 Crore (2.20%) and Indian Council of Medical Research (ICMR) provided funding of Rs. 27.52 Crore (1.35%).

SUBJECT AREA-WISE ANALYSIS

The projects are classified in eight major subject areas as under:

- | | | |
|--------------------------|-----------------------------|----------------------|
| a) Agricultural Sciences | b) Biological Sciences | c) Chemical Sciences |
| d) Earth Sciences | e) Engineering & Technology | f) Mathematics |
| g) Medical Sciences | h) Physical Sciences | |

The classification of R&D projects has been done based on the **subject area** indicated by the agencies and also based on the title of the projects. Some of the projects may be multi-disciplinary in nature but have been classified into one of the subject areas mentioned above, depending on their major thrust. **Figure 2** shows number of extramural R&D projects approved in each subject area during the year 2017-18. It shows that maximum number of projects were in the subject areas Biological Sciences, Engineering & Technology and Chemical Sciences. Maximum number of projects were in the subject area of Biological Sciences i.e. 1297. Out of these 1297 projects, the maximum number of projects i.e. 773 were approved by the Department of Biotechnology (DBT) followed by 447 projects by Department of Science & Technology (DST), 61 projects by Council of Scientific and Industrial Research (CSIR). Engineering and Technology subject area received funding for a total 1192 projects; of which funding agencies namely DST (874), DRDO (111) and AICTE (80) contributed the maximum.

The next in order is 'Chemical Sciences' in which 473 projects were approved, as seen in **Figure 2**. Out of these, the maximum number of projects i.e. 363 were approved by Department of Science & Technology (DST) followed by 93 projects by Council of Scientific and Industrial Research (CSIR).
